NextConnect Law

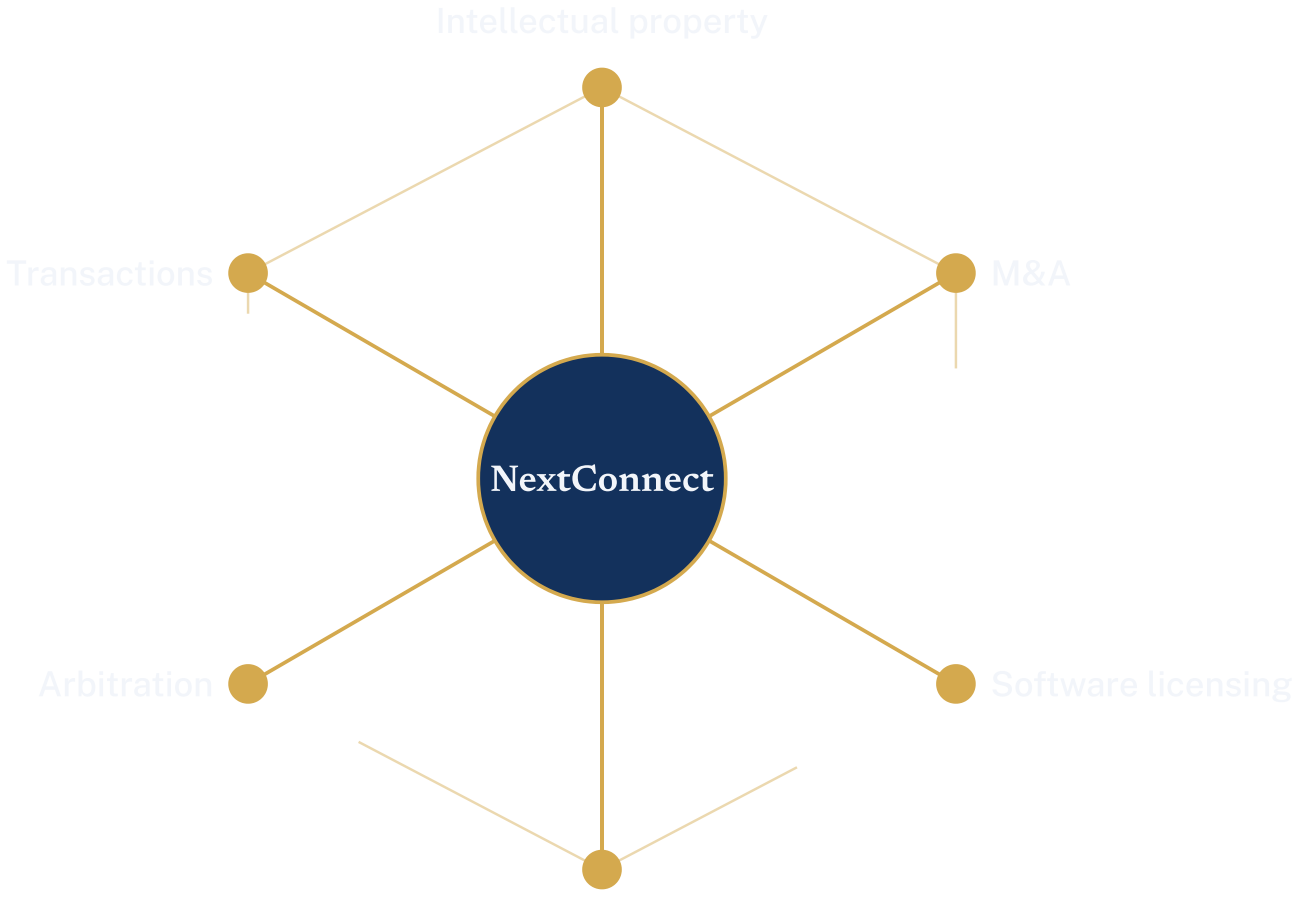

Who we serve Practice areas Approach About Contact

One counsel for the deal, the technology and the dispute.

NextConnect Law advises technology and services companies in Atlanta and beyond on intellectual property, transactions, M&A, software licensing, immigration and arbitration, with more than 20 years of law firm and in-house experience behind every matter.

I need business counsel

I need immigration help

Immigration

Choose the path that fits your situation

Businesses and individuals come to us with different needs. Each path has its own scope, process and point of contact.

For businesses

Technology and services companies, founders and in-house legal teams.

- Contracts and commercial transactions
- Mergers and acquisitions
- Software licensing and SaaS agreements
- Intellectual property protection
- Arbitration and commercial disputes

Discuss a business matter

For immigration clients

Employers sponsoring talent, and professionals, founders and families seeking work authorization.

- Employment-based visas and transfers

Founder and executive petitions

Green card sponsorship

Employer compliance and I-9 guidance

Planning around hiring and relocation timelines

Discuss an immigration matter

Practice areas

Six connected disciplines, so the contract, the IP and the people behind the business are handled together.

Intellectual property

We help companies identify, protect and monetize what they build, and make sure ownership is clean before it matters in a financing, a sale or a dispute.

Trademark strategy and registration, trade secrets, IP assignments, open-source compliance, IP diligence and portfolio clean-up.

Transactions

Commercial agreements that are clear, enforceable and built for how the business actually operates, drafted and negotiated by a lawyer who has sat on both sides of the table.

Master services and vendor agreements, reseller and distribution deals, joint ventures, NDAs, corporate governance and general business counsel.

Mergers and acquisitions

From first letter of intent to closing and integration, we run the process, manage diligence and protect value in the documents that allocate risk.

Buy-side and sell-side deals, asset and stock purchases, diligence, purchase agreements, carve-outs, earn-outs and post-closing integration.

Software licensing

Licensing is where technology companies earn revenue and take on risk. We structure and negotiate terms that fit the product, the customer and the risk profile.

SaaS and subscription agreements, enterprise and OEM licenses, source code escrow, data and AI terms, SLAs, and licensing audits.

Immigration

Growing companies need to hire and move talent. We guide employers and individuals through work authorization and keep filings aligned with the business timeline.

Employment-based visas, intracompany transfers, founder and executive petitions, green card sponsorship, compliance and I-9 guidance.

Arbitration

When a commercial dispute can’t be negotiated away, arbitration offers a private and efficient path. We draft clauses that work and advocate when they are tested.

Arbitration clause drafting, commercial and contract disputes, pre-dispute strategy, mediation and negotiated settlements, award enforcement.

A transactional lawyer's approach to every matter

Most legal problems are cheaper to solve at the drafting stage. We work that way across all six practice areas.

Business first

We start with what you are trying to achieve, then give you a clear recommendation, not a list of every possible risk.

In-house perspective

Years inside companies mean we understand deadlines, approvals and the pressure of closing a quarter.

Connected advice

An acquisition raises IP, licensing and visa questions. We see them together and plan for them before they surface.

Plain language

Agreements your team can read, your customers can sign and a tribunal can enforce.

About the firm

Sumant Khan, Principal

Experience: 20+ years in law firms and in-house legal departments

Education: J.D., Emory University School of Law

Admission: Alabama (in good standing)

Location: Atlanta, Georgia

NextConnect Law is a boutique practice focused on corporate and business law for technology and services clients. Sumant Khan has spent two decades drafting and negotiating commercial contracts, leading M&A transactions and advising companies on the legal side of growth.

Clients work directly with the principal attorney, from the first call through closing, with predictable communication and pricing options that fit the matter, including fixed-fee engagements for defined work.

Talk to us about your matter

Tell us what you are working on and we will respond with next steps and a clear scope. Initial inquiries are confidential, but sending a message does not create an attorney-client relationship.
